

IBC APPROVED AFTERMARKET THEFT DETERRENT SYSTEMS

NOTE TO CONSUMERS

The vehicle immobilizer theft deterrent systems listed below are currently recognized by IBC as meeting the requirements of *CAN/ULC S338/98; The National Standard of Canada for Automobile Theft Deterrent Equipment and Systems*.

To comply with the Standard, these systems have undergone extensive laboratory testing. To ensure a quality installation and continued effectiveness for the life of the vehicle, we recommend that these systems be installed in accordance with a companion document to the Standard, called *ULC-ORD-C275-1: Installation of Aftermarket Automobile Theft Deterrent Systems*.

Please contact system distributors directly to arrange for installation of these systems.
